Pick your spot with care. Plants can't survive without the proper amount of sun and water, so choose a place for your garden where they can get all they need. Vegetables and most flowers need full sun--which means they need a place where at least six hours of sunlight falls on them every day during the growing season. 'horticultural how-to and woo-woo' the source of organic gardening inspiration margaret roach, head gardener.

In my northern garden, crops that take over days to mature or high Think about planting your garden in blocks or beds of plants instead of.
