

They thought they were safe. Identical twins, Tyler and Toby, escaped the clutches of a covert government agency determined to exploit their extrasensory powers. Before they regained their freedom, they acquired proof of the agency's existence, proof that was guaranteed to secure immunity not only for themselves but for their friends as well. They took more than they bargained for. When the brothers learn that they have unfinished business with the agency, they find themselves reunited with Indigo Children, Liliana, Grace, Eddie, and Rebecka and once again on the run. They must rely on their instincts. While Grace and Eddie discover that love isn't always easy, Sarah's life is thrown into turmoil, and her guilty conscience leads to fear and distrust of her own heart. Intuition doesn't lie. There are new players in the game and it isn't easy to know who to trust. Sometimes the right path isn't always the easiest. Is there a way to give the agency what they want and still retain their freedom? Find out in *Indigo Instinct*, Book Two of *The Indigo Trilogy*.
