

Living Your Life One Day At A Time For A Year was written by D. Leo Lund after surviving six heart attacks and dying twice. He said everyone should die at least once so that they realize how fragile that their existence really is. How desperately fleeting that the opportunities to love and be loved can be. It provides the stark motivation to get up off of one's butt and live their life to the fullest. That is what this book of quotes, observations, and stories, is all about. He said it only took him sixty plus years to get the message. He wrote this for book for all of his friends, living, and not born yet.
