

In this business it pays to be smooth, hard as nails and tough as they come. Unfortunately for meâ€™Iâ€™m not. Luckily, I can wield sarcasm as well as any weapon, and Iâ€™m not afraid to use either of them. When that failsâ€™and it usually doesâ€™thereâ€™s no substitute for a sucker-punch. So sit back and let me tell you how this nightmare came about and made me one of the most infamous agents to ever put on a badge. But let me warn you right up front. Iâ€™m not suave enough to get a woman out of her clothes just by smiling at her. If thatâ€™s what youâ€™re after, Ianâ€™s Bond has got you covered. Iâ€™m not smooth enough to pull off most of these capers without having to fire a shot. There are guys out there good enough, like Spade and Marlowe, but thatâ€™s not me either. And Iâ€™m not one of those guys thatâ€™s so damn tough that even when he gets his ass kicked you just knowâ€™you knowâ€™heâ€™s gonna be back to finish off the bastards that did it. If thatâ€™s what you're after, then nobodyâ€™but nobodyâ€™drops the hammer, like Hammer. Iâ€™m the guy that has to get in there and get his hands dirtyâ€™filthy. The one that has to bust his ass and use everything he can to come out of it alive. It ainâ€™t always pretty, but I get the job done. And donâ€™t worry, Iâ€™m going to give you a little something in return, because I can promise you one thingâ€™youâ€™ll be laughing on the first pageâ€™in the first paragraph. If youâ€™re not, then put it down and never pick it up again. Ohâ€™and have a couple of aspirin handy, because my fights are so damn brutal that just reading about them is going to make your ribs hurt. Youâ€™ve been warned. Donâ€™t come crying to me about it later. Now, where was I? It was the year 2229, and the world was still recovering from the Planetary Civil War, which ended just a few years earlier. Weâ€™d made computers and androids so smart that it was time to ask ourselves the big questionsâ€™are they life forms? The answer was yesâ€™but it didnâ€™t come so easyâ€™enter the war. But thatâ€™s another story. The war was over, and I was one guy that sure wasnâ€™t going to miss it. The economy was booming around the galaxy and the future looked bright, at least for most of us. As a soldier returning to my hometown of Seattle, Washington, and with a shiny badge that said, Special Agent Thomas Morelli, I found myself running a small satellite office right in my own neighborhood with my lifelong friends, Eddie Shannon, and Champ, the most cantankerous, ornery android to ever roll off the assembly line. Our beat was on level one, hundreds of stories beneath the glittering lights of the skyscrapers that reach to the heavens. On a day that started off like any other, I got my ass kicked by some local gangsters on my way to the office. But my day picked up as Eddie and I were hired by a neighborhood friend, Lisa Riker, to locate her father, Paul. He was a worker at one of the nearby dock warehouses, and heâ€™d vanished a week earlier without a trace. An after-hours stroll by the warehouse landed us in a fire-fight as we tried to dig up Paulâ€™s location. The only clue lead us to suspect the involvement of one of the most dangerous criminal organizations in historyâ€™The Black Hand. Thatâ€™s right, the same gang that assassinated Archduke Ferdinand and started World War One. Now they were back, centuries later. But this time it was different--this was my town--and they just stuck their hand in the wrong cookie jar. If you want to know more, you can either read my book, or come look me up in downtown Seattle. I know a great place where you can buy me a beer.â€”Thomas J. Morelli
