

The Israeli Republic suggests how the Iranian and Israeli leaders who feel such intense mutual hostility today actually mirror one another in certain ways, particularly in their foundational attitudes toward religious authority, political and economic populism and the West. That a writer such as Al-e Ahmad, guru to the ayatollahs, liked Israel now seems touching. What he liked about Israel seems cautionary. Bernard Avishai, Foreign Affairs

Written by a preeminent Iranian writer who helped lay the popular groundwork for the Iranian Revolution, The Israeli Republic should be required reading for Israelis, Iranians, and anyone interested in the ongoing conflict between them. Documenting Jalal Al-e Ahmad's two-week-long trip to Israel in February of 1963, "Journey to the Land of Israel" caused a firestorm when it was published in Iran, upsetting the very revolutionary clerics whose anti-Western sentiments Al-e Ahmad himself had fueled. Yet, in the thriving Jewish State, Jalal Al-e Ahmad saw a model for a possible future Iran. Based on his controversial travelogue, supplemented with letters between the author and Simin Daneshvar (his wife and yet another giant in Iranian literature), and translated into English for the first time, The Israeli Republic is a record of Al-e Ahmad's idealism, insight, and ultimate disillusionment towards Israel. Vibrantly modern in its sensibility and fearlessly polemical, this book will change the way you think about the Middle East.

Letters to Zell, Growth, Differentiation and Sexuality (The Mycota), Mastering the DSM-5: Integrating New & Essential Measures Into Your Practice, The Single Plane Golf Swing: Play Better Golf the Moe Norman Way, Raising Calm Kids Leader Workbook: One Year of Children's Meditations, Austria and Switzerland (AA Road Map Europe),

An Iranian Revolutionary's Journey to the Jewish State The Israeli Republic suggests how the Iranian and Israeli leaders who feel such.
