

[Shortlisted for the Shirley Jackson Novella Award 2015] **CRIME, COFFEE AND CARELESS TALK**. A novella by award-winning novelist and graphic-novelist Simon Spurrier. Jay Berry is a pathetic man. He spends his days in the anodyne cafeterias of London, living vicariously through those around him, letting his pitiful attention skip like a pebble on a pond. But an overheard conversation and a grisly event - death-by-latte - embroil him in a caffeinated conspiracy his dismal imagination can barely comprehend. Unusual Concentrations is a bleakly funny novella about loneliness, imagination and the curious horrors of coffee shop culture. Following the success of his novels Contract and A Serpent Uncoiled, this 40,000-word blast of absurdist realism marks Spurrier's first foray into digital publishing.

Eating Your Way Across Kentucky: 101 Must Places to Eat, Geophysics (Vol. 41, No. 6A, December 1976), Biology of AIDS, Geohydrology of the eastern part of Pahute Mesa, Nevada Test Site, Nye County, Nevada, (Hydrology of nuclear test sites), Turquoise Jewelry (Schiffer Book for Collectors), Milton (Images of America), The New Genetics: Challenges for Science, Faith, and Politics,

Unusual Concentrations Jay Berry is faking it. He sits in a coffee shop, at the exact table the least attention is paid to and pretends to write. Shortlisted for the Shirley Jackson Novella award, Unusual Concentrations is a bleakly funny tale of loneliness, imagination and the curious horrors of. Michelle Herbert reviews Unusual Concentrations by SJ Spurrier Unusual Concentrations is a book about one very particular character named Jay Berry. In order to interpret the origin of two emission quenching concentrations and a sharp increase of afterglow at certain Sm^{3+} doping concentration in. While studying subdwarf stars, a team of astronomers discovered two unusual stars with extremely high concentrations of lead in their atmospheres.

Nouv Presse Med. Dec 18;11(51) [Unusual concentrations of triiodothyronine in the serum due to anti-T3 autoantibodies]. [Article in French].

OBJECTIVES: To describe the radiographic changes in coalworkers exposed to unusual concentrations of respirable quartz during the s, and to relate.
